“Finally, I’m going to have a medical provider that sees me as a whole person, not just someone with a mental illness.”

For your convenience, primary medical care is now provided onsite at CLM in Derry. Services include:

- Physicals
- Preventative care, screenings and physicals
- Chronic disease management for issues such as diabetes, blood pressure, and cholesterol
- Sick visits
- Health Education
- Pop up dental assessment clinics

Primary care is an important component to your overall health. Healthy Together provides those services to adults and adolescents (age 12+) at our Derry office.

Now you can get your primary care in the same setting as your mental health care.
